Continuation of Substance of Interview including description of the general nature of what was discussed:

The applied reference and the instant application have a common inventor and the same Assignee. Based upon the scope of claims of the reference, it qualifies for a provisional non-statutory double patenting rejection because the conflicting claims have not in fact been patented.

An Examiner-Initiated Interview with Applicants' counsel, Mr. William Androlia, was conducted on September 27, 2006 to explain the issues. As a result, Applicants' counsel agreed to file a Terminal Disclaimer to obviate any potential rejection under the obviousness-type double patenting. It was also agreed to amend claim 10 to correct typo error and figure 10 is designated by legend Prior Art. Forming drawing figure 10 will be submitted with this change as required in the attached Notice Of Allowability.

## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William Androlia on 9/25/06. The application has been amended as follows:

Specification: Add the following paragraph under the Title:

-- This application is a 371 of PCT/JP03/12656 filed on 10/02/03. --

Figure 10 is designated by a legend -- Prior Art --;

Claim 1, line 11: change "said mount substrate to -- said mounting substrate -- (typo error).

### ***Priority***

2. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed on 3/29/05.

### ***Information Disclosure Statement***

3. This office acknowledges receipt of the following items from the Applicant:  
Information Disclosure Statements (IDS) filed 03/29/2005 and 07/31/2006.  
Information disclosed and listed on PTO 1449 was considered.

***Drawings***

4. The drawings filed on 03/29/2005 are acceptable subject to correction of the informalities indicated in the Examiner's Amendment above. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

***Allowable Subject Matter***

5. Claims 1 – 23 are allowed.

6. The following is an examiner's statement of reasons for allowance: Claims 1 – 23 are allowable over the prior art of record because none of the prior art whether taken singularly or in combination, especially when these limitations are considered within the specific combination claimed, to teach:

A method manufacturing a SAW device comprising: forming an airtight between an IDT electrode and a mounting substrate; mounting a resin sheet on the upper surface of the SAW and larger than the surface of the SAW; pressurizing the resin sheet while softening or melting the resin sheet from one end of the mounting substrate to the other end of the mounting substrate; securing the airtight space during lamination step; the thickness ( $t_r$ ) of the resin sheet before the lamination step satisfies:  $L/[(X+G_x)(Y+G_y)] < \text{or } = t_r$ , where  $L = (X+G_x)(Y+G_y)(H+T+A) - XYT - XYA - [XV_yA + YV_xA + (4V_xV_yA)/3]$ ; and among other steps as cited in the independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
